

TAYLOR

KOULOOURIS
FOUNDATION

ANNUAL SPONSORSHIP
INFORMATION

THANK YOU

FOR CONSIDERING PARTNERING WITH US

OUR MISSION: Carrying on Taylor's ability to show kindness, do good, and give back by cultivating opportunities for kids to inspire one another and grow together.

WHO ARE WE? That's a great question.

If you knew Taylor, you know that one of her greatest gifts in life was seeing someone or something that needed her support and taking action. Whether they needed a smile or a friend, Taylor was there to help in any way she could. She willingly put aside what she wanted or needed to give all she had.

Throughout her life, we watched her give back to her siblings, children with special needs, her dad and I, friends, and nature. But most of all, we watched her give her whole heart to whomever needed it the most. In starting this foundation, we wanted to be able to share the love of her kind heart in ways she would have wanted.

We are the Tay K Foundation. We will support the areas and organizations she felt most passionate about and we will give back to the children we know she would have poured her heart into.

TOGETHER

WE ARE SHINING TAYLOR'S LIGHT

HOW WE ARE MAKING A POSITIVE IMPACT:

We want to take everything Taylor was passionate about in life and continue to support those causes and more. The Tay K Foundation promises to:

- **Supply resources to those in need.** Taylor dedicated her time to children with special needs year after year through Best Buddies, Tampa Kids Therapy and many other organizations.
 - **Cultivate opportunities and experiences.** Taylor was consistently involving herself in youth programming that supported her faith and nurtured her kind heart which she actively shared with others.
 - **Fund scholarships.** Taylor took pride in her academics and strived to be the best she could be. Helping others take the path she would have taken to college, or another post high school opportunity, is so important to us.
 - **Provide resources to continue education for health care providers.** In the time we spent in the Pediatric Intensive Care Unit, we saw first hand that help was needed. We want to provide the ways and means for the nurses to participate in courses to continue their education, allowing them to be a part of the Pediatric Trauma Across the Care Continuum organization.
 - **Create grief boxes for children and families.** Taylor loved her siblings, children she worked with, and her friends. We are striving to create a box for families who have lost a child in the Pediatric Intensive Care Unit (PICU). The box will contain invaluable resources that the parents would need not only for themselves, but also for their grieving children. This initiative is inspired by Taylor's love, kindness, and giving nature. We hope it will make a positive impact on the lives of those who have suffered such a loss.
